MultiSUITE CAD Tailor Made for Construction

AutoCAD® add-on applications require you to have already purchased a full copy of AutoCAD®.

MultiSUITE CAD products are quite different.

MultiSTEEL CAD and MultiREBAR CAD are fully self contained Structural Steel and Reinforced Concrete detailing CAD packages. One install from one CD and you are ready to start drawing.

MultiSUITE CAD is powered with the world's leading CAD technology AutoCAD® by Autodesk. An OEM (Original Equipment Manufacturer) agreement between Autodesk and MultiSUITE Software enables us to provide you with a tailored specific CAD solution for your area of work.

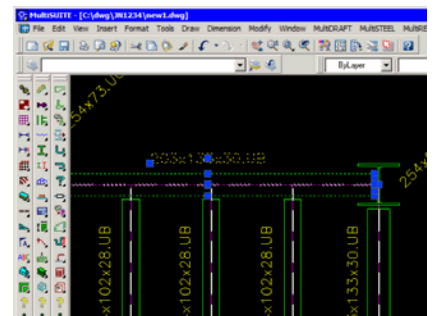

This kind of AutoCAD OEM - based price performance is only available from MultiSUITE Software.

Companies of all sizes have taken to the unique combination of power and economy that MultiSUITE CAD provides. A significant number of companies from

small consulting practices to major industrial design organisations have adopted MultiSUITE CAD as their sole structural CAD solution.

MultiSTEEL CAD is a fully self-contained Structural Steel CAD solution for less than £2950. Powered by well known and familiar Autodesk Technology it is 100% compatible with the latest AutoCAD DWG.

MultiREBAR CAD is a fully self-contained Reinforced Concrete detailing and scheduling CAD solution for less than £2950. Powered by well known and familiar Autodesk Technology it is 100% compatible with the latest AutoCAD DWG.

AutoCAD Tips and Tricks

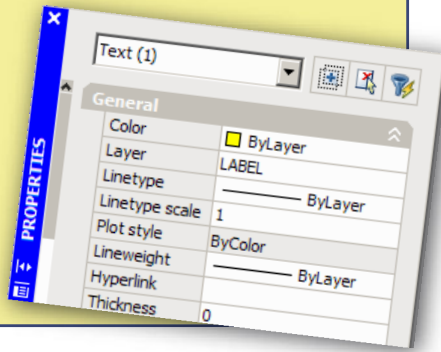

When I double click on an object I want the Properties dialog box to be displayed...

Type DBLCLKEDIT at the command line and set this variable to be 1

Type PICKFIRST at the command line and set this variable to be 1

Now it works...

Life's a beach...

All MultiSUITE users with current helpdesk and upgrade agreements should have received the latest MultiSUITE Mouse mats.

We hope these remind those of you coming into the colder months of what Summer is like, and that they keep you smiling until next Spring. If you have not received yours then please give us a call and we will be pleased to send you one.

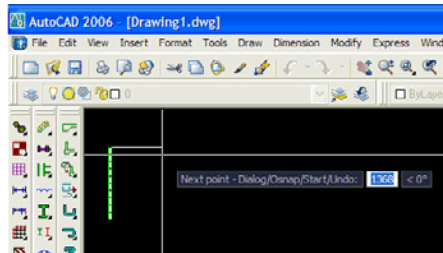

MultiSUITE on AutoCAD 2006

MultiSUITE was the first structural Steel and Rebar software to be compatible with AutoCAD 2006.

available on the very day that users received their new AutoCAD.

With the introduction of the AutoCAD subscription services it means that more users than ever are installing the new versions within days of the launch. MultiSUITE Software is committed to new releases of MultiSTEEL and MultiREBAR as soon as possible after the new AutoCAD releases.

With AutoCAD 2006 we broke all records making MultiSUITE for AutoCAD 2006

• 2006's Dynamic Head's up onscreen command line

Nothing is set in Stone...

BSI releases new BS8666:2005 detailing code

With the BSI releasing the new BS8666 rebar detailing standard in September 2005, now is an excellent time to look at MultiREBAR CAD.

The new standard introduces a staggering 18 new shapes. Grade notations like T and R have now been replaced with A, B, C and H. Refer to the web link for more information.
